Education

Vishwakarma Government Engineering College (VGEC) 2023 – Present
CPI: 8.12
Ahmedabad, Gujarat

Shree Shastree Swami Narayan Swarupdas Vidhyalay (GSEB – 12th) 2022 – 2023
Percentage: 81.34%
Surendranagar,Gujarat

Shree Shastree Swami Narayan Swarupdas Vidhyalay (GSEB – 10th) 2020 – 2021
Percentage: 95.33%
Surendranagar,Gujarat

Projects

Bansari Homeopathic Clinic Management System | *React, Node.js, MongoDB*

- Full-stack web application for managing patient records, scheduling appointments, and handling billing with a responsive UI.
- Implemented session-based authentication, real-time appointment updates, and an intuitive dashboard for clinic staff.

Car Price Prediction (ML) | *Python, Scikit-learn, Random Forest, Flask, Heroku*

- Machine learning model using Random Forest Regressor to accurately predict used car prices based on key features.
- Deployed as a web application via Flask on Heroku, enabling users to get instant price estimates through a clean interface.

Technical Skills

Languages: Python, JavaScript, TypeScript, C/C++, SQL, HTML, CSS
Frameworks: React.js, Next.js, Node.js, Express.js, Flask, Bootstrap, Tailwind CSS, Framer Motion
Developer Tools: GitHub, VS Code, Postman, Vercel, Heroku, pgAdmin, MATLAB
Databases / Cloud: MongoDB, PostgreSQL
ML / Data Science: Machine Learning, Data Analysis, Data Visualization, Scikit-learn, TensorFlow, XGBoost, Random Forest
IoT & Others: ESP32, MQTT, Prompt Engineering, Google Analytics, WordPress, Microsoft Excel
Soft Skills: Team Collaboration, Leadership, Problem Solving, Communication, Time Management
Areas of Interest: Full Stack Development, Data Science, Machine Learning, Competitive Programming

Certifications

Advanced Google Analytics Google
Advanced tracking, reporting, and analytics strategies.

Data Analysis with Python Coursera / IBM
Data analysis, visualization, and Python programming for data science.

Python for Data Science IBM
Core Python concepts applied to data science workflows.
