CAREER OBJECTIVE

Motivated B.Tech Computer Science (Data Science) student at VGEC with 3 internships in full-stack development and machine learning. Proficient in building production-grade web applications, ML pipelines, and AI-integrated systems using modern technologies. Seeking a software engineering or ML role where I can deliver scalable, data-driven solutions and grow within a collaborative team.

INTERNSHIP EXPERIENCE

Machine Learning Intern | [CodeAlpha](#) Jan 2026 – Present | Remote

- Designed and deployed a Credit Scoring Model using XGBoost and SMOTE to handle class imbalance, achieving high AUC-ROC; built a Streamlit frontend for real-time predictions.
- Built end-to-end ML pipelines covering data ingestion, feature engineering, hyperparameter tuning, and model evaluation using Scikit-learn and Python.
- Implemented additional predictive models for classification and regression tasks, validating results with cross-validation and performance benchmarking.

Full Stack Development Intern | [CodeAlpha](#) Jan 2026 – Present | Remote

- Developed and deployed full-stack web applications using React, Node.js, Express.js, and MongoDB following RESTful API design standards.
- Built responsive, mobile-friendly UIs integrated with backend APIs; applied authentication flows and CRUD operations on live production builds.

Web Development Intern | [1Stop.ai](#) 2024 | Remote

- Completed a structured internship building responsive web interfaces using HTML, CSS, JavaScript, and frontend frameworks.
- Gained hands-on experience in UI/UX principles, cross-browser compatibility, and project delivery workflows in a professional environment.

PROJECTS

ResumeIQ — AI Resume Analyzer | [React.js](#), [Node.js](#), [Python](#), [OpenAI API](#), [PostgreSQL](#), [Vercel/Render](#) 2024

- Built a full-stack AI SaaS platform that evaluates ATS compatibility, identifies keyword gaps, and generates personalized resume rewrites using the OpenAI API.
- Deployed frontend on Vercel and backend on Render; implemented JWT authentication, PostgreSQL data storage, and a responsive analytics dashboard with real-time scoring.

Intelligent Document Organizer | [React.js](#), [Node.js](#), [MongoDB](#), [OpenAI API](#), [Express.js](#) 2025

- Architected an AI-powered document management system that automates file categorization and tagging using NLP-based metadata extraction and semantic analysis.
- Implemented context-aware semantic search and retrieval engine, significantly reducing document lookup time; integrated an interactive productivity dashboard.

Clinic Management System | [React.js](#), [Node.js](#), [PHP](#), [MySQL](#) 2024

- Designed a full-stack clinic management system handling patient records, appointment scheduling, and billing with a secure session-based authentication layer.
- Built a real-time admin dashboard to track appointments and patient data, reducing manual overhead and improving operational workflow efficiency.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C, SQL, HTML, CSS

Frontend: React.js, Next.js 14, Tailwind CSS, shadcn/ui, Framer Motion
Backend: Node.js, Express.js, FastAPI, Flask, SQLAlchemy, Celery, Redis
AI / ML: Scikit-learn, XGBoost, TensorFlow, LangChain, OpenAI API, NLP, Random Forest, SMOTE
Databases: PostgreSQL, MongoDB, MySQL, Redis, Neon, Upstash
DevOps & Tools: GitHub Actions, Vercel, Render, Docker (basic), Postman, pgAdmin, Clerk Auth

EDUCATION

Vishwakarma Government Engineering College (VGEC) B.Tech – Computer Science & Engineering (Data Science)	2023 – Present CPI: 8.12
Shree Shastree Swami Narayan Swarupdas Vidhyalay GSEB – 12th Grade (Science)	2022 – 2023 81.34%
Shree Shastree Swami Narayan Swarupdas Vidhyalay GSEB – 10th Grade	2020 – 2021 95.33%

CERTIFICATIONS

Python Certification — HackerRank Validated core Python proficiency, data structures, and algorithmic problem-solving skills.	2025
Markets Quantitative Analysis (MQA) Job Simulation — Citi — Forage Applied quantitative analysis, financial modeling, and market data interpretation techniques.	2026
Data Analytics Job Simulation — Deloitte Australia — Forage Performed real-world data analysis and generated actionable business insights from complex datasets.	2026
Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft Foundational knowledge of cloud computing concepts and core Microsoft Azure services.	2024
Data Analysis with Python — freeCodeCamp Applied Pandas, NumPy, and Matplotlib for data cleaning, analysis, and visualization.	2024
Python for Data Science — IBM Developed skills in data manipulation, exploratory analysis, and visualization using Python.	2024
Web Development Front-End — 1Stop.ai Built responsive UI components and implemented frontend workflows in a professional setting.	2024
